

Hexacoif DoP

Smoke vents range

NSHEV for renovation application
Double Flaps (Pneumatic)
CE - This smoke vent meets the
European regulation EN 12101-2
in force.

Hexacoif DoP (two opening flaps) is designed to fit with all kind of existing support (concrete, steel, wood...), and can be controlled by thermofuse and/or central pneumatic box.

This smoke vent is available in 3 levels of aerodynamic performances (ECO, STANDARD and PLUS).

(1) DT = Dimension Top of upstand (Commercial reference) and DB = Dimension Bottom of upstand (Geometrical area) - (2) PCA = Multilayer polycarbonate panels 10 or 16 mm, CAI = Insulated aluminium cover and DD = Double Dome - (3) SL 250 (0-400 m of altitude) - SL 550 (400-800 m of altitude and more) - (4) Minimum pressure of CO₂ for closing = 8 bar

Hexacoif DoP

Smoke vents range

Hexacoif DoP Eco in waiting position

Hexacoif DoP Eco in safety position - Opening 90°

COMPONENTS:

- A metallic upstand in galvanized steel of 150 mm high, which can be installed on all kind of existing support (concrete, steel, wood...).
- This product also allows to transform the original function of an existing skylight, while conserving the existing upstand.
- An aluminium frame which protects the periphery of dome or PCA.
- A thermofuse pre-installed in the factory.
- Two opening flaps controlled by thermofuse and/or central pneumatic box. The opening power is given by 2 CO₂ piston integrated in the whole system. The opening and closing function is controlled from the floor by activating a CO₂ cartridge for opening and a CO₂ cartridge for closing.
- In option, an electric drive 230V can be installed for daily ventilation purpose (opening of 30 cm).

FILLING:

- Our standard:
 - PCA 10 mm 4 skins
- In option:
 - PCA 16 mm 7 skins
 - Insulated aluminium cover

For additional details, see the rubric of the options.

Working	Type B opening + closing
Cycles	Re 10,000 (daily ventilation) + Re 1,000 (smoke extraction)
Snow load	SL 250 or SL 550
Low Temperature	T (-15°)
Wind load	WL 1 500 Pa
Resistance to heat	B 300 °C
