*Hexacoif Fix*

#### COMPONENTS:

- A metallic upstand in galvanized steel of 150 mm high, which can be installed on all kind of existing support (concrete, steel, wood...).
- This product also allows to transform the original function of an existing skylight, while conserving the existing upstand.
- Hexacoif Fix can be equipped in option with an insulated framework ( $U_f = 2.5 \text{ W/m}^2 \text{ K}$ ).
- An aluminium frame which protects the periphery of dome or PCA.

#### FILLING:

- Our standard:
  - PCA 10 mm 4 skins
- In option:
  - PCA 16 mm 7 skins
  - Double dome in PMMA, polycarbonate or Hexachoc 1200J

*For additional details, see the rubric of the options.*
